

Machine Readable Files

Beginning July 1, 2022, as a part of the Transparency in Coverage regulation, the Tri-Agencies (U.S. Departments of Health and Human Services, Labor, and Treasury) require health plans (including self-funded group health plans and insurers offering coverage in the individual and group markets) to **publish negotiated rates for all items and services for Commercial coverage (In-Network files) and historical payments to, and billed charges from, out-of-network providers (Out-of-Network Files) in the form of machine-readable files made publicly available on an internet website.** This information will be updated monthly. The data in these files is based on the requirements of the Transparency in Coverage (TIC) regulation. We believe this information to be an accurate representation of the required data as of the date the information was extracted but the data is subject to change before the next monthly file update. This data is provided solely for the purposes set out in the TIC regulation. Use of the information in this database for any other purpose by a third party is at the third party's risk, and Anthem assumes no responsibility for how the information in these files is used or interpreted by third parties.

These files are identified by **Employer Identification Number (EIN)** for group business or Health Insurance Oversight System (HIOS) number for individual business. **Members can now access the MRF files on the NEHC Welfare & Pension website at www.1199nefunds.org**

Members can click on the [Anthem Machine Readable File Search link](#) listed on the website that will take them directly to the Anthem “**View Machine Readable Files**” site

The screenshot shows the website for New England Health Care Employees Welfare & Pension Funds. The main navigation menu on the left includes: Transparency & Coverage Rules, Welfare Fund, Pension Fund, Download Forms, Change of Address Form, Anthem Provider Search, Sydney, Anthem's Mobile App, Free at-home COVID-19 tests, 1095-B, Pension Fund Questions and Answers, and Pension Fund Highlights. The 'Transparency & Coverage Rules' page is active, displaying the title 'Transparency & Coverage Rules' and 'Anthem – Machine Readable Files'. The page content states: 'Effective July 1, 2022, based on the U.S. Departments of Health and Human Services, Labor, and Treasury rule on Transparency in Coverage rules we are mandated to publish machine readable files (MRFs) related to health plan coverage so that consumers/members can see negotiated rates between service providers and third-party payors including out of network allowed amounts.' Below this, it provides a link to access the files: 'Below is the link to access the files reflecting standard format and information related to the Anthem ESO plan. Please enter the New England Healthcare Employee Fund EIN number 06-1188411 to access the files.' Contact information is provided: 'Any questions, feel free to call the fund office at 860-728-1100 or Toll Free at 800-227-4744.' At the bottom, there is a link: '[Anthem Machine Readable File Search](#)'. A search bar is partially visible at the bottom left.

At the Anthem site scroll down to **Find Files for an Organization** and enter the Welfare Funds EIN **06-1188411** then click on search.

Machine Readable Files

A machine-readable file is defined as a digital representation of data or information in a file that can be imported or read by a computer system for further processing without human intervention, while ensuring no semantic meaning is lost. These files are in the CMS defined format (JSON) and are not meant for a member-friendly search of rates, benefits, or cost sharing. Members should log in to [anthem.com](https://www.anthem.com) for this information.

The table of contents is an approved CMS schema approach that combines the in-network rate files and references the locations (URLs) from which the appropriate files can be downloaded. To view a list of all machine readable files and associated urls published, click the Table of Contents link below and follow the prompts.
